Forecast for Thursday 29 Jun 2023

Weather: Turning mainly dry during the early hours with clouds breaking and skies clearing. Mainly dry on Thursday with broken cloud and sunny intervals but a few light showers are possible during the morning. Generally dry during the afternoon and evening with sunny periods and patchy cloud.

Chance of cloud-free hill tops above 600m: 80%.

Low cloud and visibility: Ragged fragments of cloud are possible above 600m during the morning, but any cloud by the afternoon should be above the height of the summits. Excellent visibilities with very good air clarity allowing for distant views of far-away hills and landmarks. Locally briefly falling to moderate in any morning showers and locally poor or very poor in any morning cloud.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A fine day for hill walking with fantastic views for most of the day. Despite it not feeling particularly hot, high or very high levels of UV are expected, so remember to protect your skin.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Tue 27 Jun 2023	1mm	1mm	1mm

Forecast for Friday 30 Jun 2023

Weather: Early brightness, especially in the east, but turning mostly cloudy during the morning. Showery rain is likely at times during the day but some reasonably lengthy dry periods are also possible. More persistent rain and drizzle may arrive by the evening but this aspect of the forecast remains uncertain.

Maximum wind: Westerly 20 mph gusting 30-35 mph.

Chance of cloud-free hill tops above 600m: 40%

Low cloud and visibility: Patchy cloud developing above 600m soon after dawn, becoming more persistent through the morning with periods of cloud above 500-600m for the remainder of the day. During any prolonged periods of rain and drizzle the cloud may lower to 400m. Often moderate to good visibilities at lower levels, despite the rain, but frequently poor or very poor at higher levels due to cloud and persistent rain/drizzle.

Temperature: **Valleys:** Plus 9 Celsius rising to plus 18 Celsius.
At 600m: Plus 10 Celsius rising to plus 13 Celsius.
Freezing level: Well above the summits.
